are English-language learners,
compared to **10%** statewide

Data based on SY24-25 counts from [NYSED Information and Reporting Services](#)

All parents should have the freedom to decide on the right school for their child's individual needs. Many parents in low-income communities do not have any options outside their local traditional public school. New York's public charter schools give these parents and students additional high-quality, innovative options that can inspire their educational journeys and **prepare them for the next levels of education and career.**

About Public Charter Schools in the Bronx

As of Spring 2025, there are 100 public charter schools operating in the Bronx, serving 50,739 students. Like their counterparts throughout the state, each of these public charter schools completed a rigorous approval process to open and clearly demonstrated an existing community need for their services. And as evidenced by recent NYS assessment data, public charter schools are working. Students in grades 3-8 from public charter schools perform 7 percentage points better than all public schools statewide in both ELA and Math and tested a larger portion of their students with disabilities than any other type of school in the state.

What Charters Offer Students

Public charter schools have the freedom to innovate in their educational approaches, while remaining accountable to the same standards of public district schools. Public charter schools offer rigorous academic programs aimed at addressing learning gaps, preparing students for success in the next levels of their education and careers, and delivering skills needed for the 21st century economy. Often serving students for whom traditional schools were ineffective, public charter schools develop personalized learning approaches and interventions through their autonomy over staffing, budget, programs, culture, and professional development.
